Now. It may be better than Assassians Creed: Unity, but there is no umbrella. Your game is invalid.

The rest of the page is burned.. Where should I start? the only pro is the cute character designs. everything else is horrible. not worth a dollar. I want a refund.. worst\u2665\u2665\u2665\u2665\u2665. im sick of the hackers in this game. The last one i played with "femidom" was lag switching and using god mode.

on the bright side I did once beat my dad at this game, but then he beat me, with his whips.

got me hard = Recommend. Worst VR experience ever. It is nice to look around, you get the feel of being inside DeusEx...as long as you don't move. I usually do not suffer from motion sickness, but this... You should definitely install this for your VR. 1) you can let someone who you don't like to "enjoy" it. 2) If you eat something poisonous and need to get it out... play this. 5 minutes max and you'll be clean. This game is the worst game I have encountered in Steam so far. You know, I once heard a saying that you don't want to touch some things with a 10-foot pole. This game is so rare that I don't want to touch it with a 10-foot pole, I want to be in another galaxy as far away from this game as possible. I must say though, they did predict where I would go to get away from this game just by the theme of the game. Space.. For it's price it's an amazing game.. This game is terrible, do not buy it.. Simple but Fun

its ok i guess. This game is pretty much what you'd expect from a free VR game: poor graphics, poor voice acting, lack of spatial audio, and some awkward performance. To its credit, it does have a semi-interesting narrative so far (about 15 minutes in), and I think it has potential for being an open world RPG, but it has a long ways to go.. Picked up in the Steam summer sale for £0.15p! Wasn't really expecting too much in all honesty.

Loved the characters, really enjoyed the multiple endings and the possibility of slaughter if you decided to upset the wrong people!

Would have liked it even more if you could have kept the lizard as a permanent party fixture!

Few bugs and bit of crashing but only encountered one major issue and it was resolved almost immediately!

Very good game for the price.. Very epic looking costumes lady gaga and bazooka skirt. I've loved the Nancy Drew books since my youth. I'd also apparently lived under a rock for quite some time because I hadn't known that games were made based in her adventures. I really enjoyed this game since it was one that made you think and combined some casual games with some not so causal ones. I especially liked working with the wolf.

That darn Fox and Geese game irritated me greatly though. The man just wouldn't go to the quarter I needed him in. It took some time to get the wins I needed for that puzzle. I also am now going to have to get a Fox and Geese board for the kids and I.

I really recommend this game to a mystery lover that likes to think. I don't recommend it to those that are used to games that are just bash and trash.. A short and sweet kinetic visual novel with thoughtful, pensive writing, a budding romance that strikes true, and a character I could relate to. The artwork here is lovely, there is an uplifting ending, and this sad story of Emmeline Burns is altogether worth the hour or two it will take to finish.. Superb attention to detail. Well worth the money.. I must say, that this is rather, well, Dissapointing

Firstly, the whistle is absolute GARBAGE

The textures seriously need some reworking in-cab.

Outside looks nice enough, and it was nice of them to include two models of the engine as well as the tender.

I seriously doubt that RSC/VDTC actually did anything to this model before re-releasing it!

The chuff sounds, as well as most other sounds on the loco, are copied DIRECTLY off of the default Kuju European Assets steam locomotives...

All i can say is, at least I bought it on sale and only wasted 10 bucks on it!

I was going to buy the LNER Black Flying Scotsman instead, but chose this one... All i can say is BUY THE FLYING SCOTSMAN!

Would I recommend this? No, I would not. Not unless RSC does some work to it, or it is DIRT CHEAP!. Degenerate.
